

Frequently Asked Questions

What is your band line up?

We are a five-piece band, which consists of:

- *Female lead and backing vocals*
- *Electric and acoustic guitar*
- *Electric bass guitar, male backing vocals*
- *Keyboard, male lead and backing vocals*
- *Drums*

What is a typical set length?

Performances usually consist of two one-hour sets or three of 40 minutes, although we can tailor this to your requirements.

Are you able to offer extended performances/extra sets?

While up to two hours of play time is included in the base price, for an additional fee we can increase our playing time, up to a maximum of three hours. Please enquire for prices.

What is the latest time you can play to?

Our quotes are based on playing up to midnight. If you would like us to continue later, please discuss this with us at the time of booking, as an additional fee may apply.

How much time do you require to set up?

We ideally like to arrive at least two hours before we are due to start playing. This gives us plenty of time to set up, sound check, have a quick break and get dressed prior to starting.

How much stage space do you require?

We require a minimum area of 16ft (5m) wide by 12ft (3.7m) deep for the band to assemble in. However we do appreciate as much space as possible.

How many power sockets do you require?

We need a minimum of four power sockets.

What are your parking requirements?

We request parking space for four cars, ideally as near as possible to where you wish us load/unload our equipment. If there are any access issues with the venue, please let us know well in advance.

Do you require any extra storage or changing facilities?

We do require changing facilities, as well as a lockable room in which we can store instrument cases etc.

Do you require refreshments during the event?

We do request a free supply of drinking water throughout the event. Other non-alcoholic refreshments or food would be lovely but are not compulsory!

How does your booking process work?

Please contact us for a quote. If after receiving this you wish to go ahead with the booking, we will confirm the details and send you out an MU contract. This will need to be signed and returned within 10 days. We will email you before the event to finalise any last minute details. If you have any questions between the time of booking and the event, please feel free to contact us and we'll be happy to assist.

Do you take requests?

Given sufficient notice, and depending on the song required, we are happy to take era-appropriate 50s/60s requests. This may incur an additional charge for extra practice time, but we'll always let you know in advance if that's the case.

Can you play our first dance for us?

As the first dance is arguably the most important song of the evening, we will only play a choice not from our list if it's within our instrumentation and style. If for any reason we can't perform the song live, we can arrange for the original version to be played over our sound system at the appropriate time. We'll be able to tell you well in advance whether we think we can perform your chosen song.

Can you provide music when you're not on stage?

Yes, we will happily provide an extensive selection of era-appropriate 50s/60s music through our PA before, between and after our sets, at no extra charge.

Can you play my music through your PA?

Yes. We are happy to play any music provided on an iPod or similar device, as long as it has a standard 3.5mm headphone socket/line out. Just pass your music player to the sound engineer at the start of the evening.

Do you charge extra for sound and lighting equipment?

All PA and lighting equipment is included in the quoted price.

Do you use backing tracks?

No! All of our music is 100% live – no backing tracks or pre-recorded instruments are used.

Some of our guests are musicians – can they play with you on a few songs?

Unfortunately, we are unable to allow guest musicians to play with us, even if they provide their own equipment.
